Bypass International Transfers (WhatsApp Bot + Full Web App)

2025-08-01 – 2025-08-18

Cross-border transfers and digital products sold via a WhatsApp conversational flow, powered by a Laravel API and a Cloudflare Worker relay for Graph access.

- WhatsApp Cloud API bot with interactive buttons/lists, status command, and Joyleen avatar welcome
- Cloudflare Worker relay for /messages, /graph, signed media download and uploads; secured with X-Relay-Key
- Laravel backend for quotes, orders, receipt uploads and admin notifications; API-key auth
- Dockerized stack (Nginx, PHP-FPM, Redis, MySQL, Certbot) with healthchecks and logs
- Receipt ingestion with secure media fetch and 20MB validation; Redis dedupe + session windowing

Milestar Trade — Wheat Brokerage (RU ? NG)

2024-12-01

Corporate website and lead-gen landing for a Russia?Nigeria wheat brokerage, built with Laravel + Tailwind + Alpine. Emphasis on credibility, fast loading, and clear CTAs.

- Dark/light theme toggle with persisted preference
- Performance optimizations: preconnects, image preload, minimal JS
- AOS motion with reduced-motion fallbacks
- Glass/mesh hero design with accessibility-first contrast
- Mobile sheet navigation and keyboard focus states
- Contact form with honeypot + server validation
- SEO: meta tags, Open Graph, and JSON-LD (Organization + FAQ)
- Semantic HTML, focus-visible, and ARIA labels
- Reusable section components and clean Blade partials

SafeCare Organisation

Modern nonprofit web presence with performance-first landing pages, accessible UI, and a clean design system.

- Responsive build with light/dark theming and semantic, accessible components
- Animated background motif (subtle mesh/halo) with reduced-motion fallbacks
- SEO/OG metadata and schema.org for better discoverability
- Strong Lighthouse scores across performance, accessibility, and SEO
- Docker/Nginx deployment and automated TLS

GarnetCart

2023-11-01 – 2024-02-01

Boutique-grade e-commerce platform built with Laravel, featuring AI-enhanced shopping, dynamic media galleries, and elegant branding. Designed for rebranding and multi-tenant deployment.

- Laravel + Livewire v3 backend with Blade templating and Alpine.js interactivity
- Tailwind CSS design system with custom branding: Garnet Red, Rose Gold, Soft Blush
- Dynamic product gallery with Swiper.js supporting both images and videos
- Stock progress bar with urgency indicators and low-stock thresholds
- Livewire-powered cart with real-time toasts, quantity updates, and checkout flow
- Custom CSS animations: shimmer effects, fade-ins, pulse glow, and parallax hero
- Dark mode support via CSS variables and data-theme toggling
- Responsive layout with accessibility features: focus-visible, ARIA labels, reduced motion
- Dockerized deployment stack with Nginx, MySQL, Redis, and Certbot SSL
